Summary

Detail oriented Full Stack Developer with hands on experience engineering scalable web applications, automated CI/CD pipelines, and secure containerized infrastructure. Proficient in Java (Spring Boot), Next.js, TypeScript, and identity management (OAuth 2.0/Keycloak), with practical expertise in Linux VPS orchestration, automated testing with Playwright, and relational/NoSQL database architecture.

Professional Experience

DvTechLabs (Pvt LTD) Colombo, *Trainee software engineer* 02/2026 – 08/2026 | Colombo Sri Lanka

- Engineered full-stack SaaS and e-commerce features using Spring Boot, Next.js, and PostgreSQL.
- Architected RESTful APIs via MVC patterns to connect frontend UIs with backend microservices.
- Automated QA and deployment by integrating CI/CD pipelines and Playwright end-to-end test suites.
- Secured access by implementing Keycloak and OAuth 2.0 for user authentication and role-based authorization.
- Architected and deployed an isolated staging environment on Linux VPS infrastructure using Coolify, Traefik, and Docker to mirror production workloads.
- Implemented secure edge-to-container routing via Cloudflare proxying and Traefik ingress, enforcing full SSL termination and strict HSTS policies.
- Engineered automated containerized build pipelines for Spring Boot and Next.js, optimizing memory utilization and streamlining continuous deployment across distinct environments.

Projects / Academic Work

udaratacomputers.lk, *E-commerce platform* 11/2025 – 01/2026

Developed a web based e-commerce platform for the Udarata Computers computer store to make their sales via website using Laravel and Next.js.

UrbanFood System

Developed a full-stack online food ordering system using Spring Boot, Oracle Database, MongoDB and Thymeleaf. Implemented CRUD operations, MVC architecture, and database connectivity.

Smart hall management system

Created a web-based hall management system to automatically allocate halls to groups. Implemented role-based access for administrators, students, and lecturers. Used Next.js, Spring Boot, PostgreSQL and Keycloak with OAuth2.0 for authentication manager

Vehicle ordering system

Built a web-based vehicle ordering platform with customer, dealer, and admin panels Using Spring Boot React.js and MySQL. Handled user authentication, data management, and backend logic.

Fixmyride app
Developed a web and mobile-based application to help users locate nearby mechanics during vehicle breakdowns using Kotlin Jetpack Compose, PHP and MySQL. Worked on backend APIs, database integration, and user workflows.

Smart water management system
Engineered an IoT-integrated web and mobile platform with an autonomous water controlling system to monitor quality and manage daily household water usage.

Talking robot with Gemini AI
Built a gesture-controlled robot integrated with Gemini AI using APIs. Enabled real-time interaction and voice-based question answering.

Heart disease prediction AI Model
Developed a machine learning model using Python to predict heart disease based on patient data. Applied data preprocessing and model evaluation techniques.

Education

Coventry University, *BSc (Hons) Computer Science with Software Engineering* 03/2026

NIBM City University, *Higher Diploma in Software Engineering* 2024 – 2025

NIBM City University, *Diploma in Computer System Design* 2023 – 2024

Technical Skills

Languages & Runtimes, *HTML, CSS, Java, JavaScript, TypeScript, Node.js*

Frameworks, *Spring Boot, Next.js, Playwright*

Databases, *PostgreSQL, Oracle, MySQL, MongoDB*

Tools & Design, *Git, GitHub, Postman, Figma and UI/UX design , VS Code, IntelliJ IDEA, Android Studio*

Concepts, *Object-Oriented Programming (OOP), MVC Architecture, MVVM Architecture, Rest API, CRUD Operations, SDLC, Version Control, OAuth2.0, Swagger Report Generations*

Modern Libraries, *Shadcn UI for Next.js*

DevOps & Systems, *Docker, Linux (CLI, Process Management, File Permissions), Git, Bash*

Soft Skills

- Problem Solving
- Analytical thinking
- Leadership
- Team Work

Extra-Curricular Activities

Media Club of NIBM Kandy, *President* 2024 – 2025

Rotaract Club of NIBM Kandy, *Editor* 2024 – 2025

IT Society of NIBM Kandy, *Active Member* 2023 – 2025
